www.insol.org

INSOL International is the world wide association of insolvency and turnaround professionals.

INSOL International....

Opens Doors –

In today's shrinking global marketplace INSOL International offers the opportunity to network and exchange information with colleagues in **over sixty countries** around the world. Over **7,000 members** are listed in our annual directory which is sent to all members and on our web site database where you can "Search for a Member". Why is this important?

Because the global marketplace is shrinking and more cases have connections overseas, even smaller enterprises now have international links through the use of the internet. By being included in our membership directory and on our web site your name and firm will be at the forefront when looking for professionals in other jurisdictions.

Leads The Way –

INSOL works with international organisations like UNCITRAL and the World Bank to produce best practice guidelines, model laws and legislation. INSOL frequently works with professionals in specific countries to develop their insolvency laws. Why is this of value?

This creates an understanding between different local systems and recognition in foreign courts or jurisdictions which means you can work faster to achieve the aim of saving assets/companies/jobs.

Includes Everyone –

INSOL's members include accountants, lawyers, judges, turnaround & restructuring professionals, academics, regulators and lenders. INSOL has a number of specialist groups such as the Judiciary, Lenders Group and Academics Group, they meet frequently to discuss wider issues of global insolvency. The 2005 Sydney Congress hosted seven ancillary meetings prior to the main congress; Insurance, Small Practice, Academics', Turnaround and Reorganisation, Judicial Colloquium and Lenders'. Why is this of value?

It encourages discussion between the different groups, which leads to a better understanding and assists in developing the process.

Brings Professionals Together –

INSOL provides the opportunity for you to network in different regions, to exchange knowledge with professionals from other countries and enjoy outstanding technical programmes at our Annual Conferences and Quadrennial Congress. INSOL members can take advantage of discounted rates at our conferences. Why is this of value?

INSOL provides regular technical programmes that examine the systems of different countries and works towards better international understanding and co-operation whilst covering current issues facing the practitioner and the hot topics of the day. It also enables you to meet and share experiences with practitioners from around the world.

Makes a Difference –

INSOL speaks as one with the same aim wherever in the world. It enables you, as part of the insolvency profession, to make a difference not only on the world stage but also in helping specific countries develop their systems, and as part of an association respected for its principals, values and neutrality. Members are encouraged to be part of INSOL committees, contribute to our projects and publications and be involved in the technical programmes at our conferences. Why is this of value?

Through active involvement in INSOL you will benefit from the twenty-four years INSOL has spent striving to achieve a better working relationship with professionals in the different regions of the world. Volunteers get their names in front of thousands as prominent leaders in the insolvency and turnaround profession.

Educates and informs –

INSOL International produces a number of publications which are distributed to our members covering key aspects of international insolvency and restructuring issues. Recent publications include Directors in the Twilight Zone II, Employee Entitlements and Bank Insolvency, An International Guide for Deposit Insurers. Our quarterly journal INSOL World reports on changes in legislation, cross-border cases and other issues frequently not covered elsewhere. Regular electronic newsletters provide up to the minute snippets of news on international cases, legislation and new developments listed by region.

Our web site has a members only section which gives access to judicial evaluations and judgments, congress papers and other technical information not otherwise available. Our web site committee is continually looking to improve the information available to members. Why is this of value?

In todays shrinking world you cannot afford to be without the necessary information to keep up to date with current events. The wide reach of INSOL means you are never in the dark when it comes to significant changes in the international insolvency and restructuring profession.

Membership benefits at a glance:

- Conference and Quadrennial Congress Discount.
- In-depth international technical publications.
- INSOL World – quarterly journal.
- Exclusive members only listing on web site.
- Contact details published in Annual Directory.
- Electronic newsletter – regular international updates on case law and country legislation.
- Members only access to technical papers on web site.
- Dedicated web site for INSOL members www.insol.org
- Global insolvency web site. www.globalinsolvency.com
- Volunteer opportunities on INSOL technical projects, conferences and publications.
- Discounted subscription rates for International Insolvency Review and Global Turnaround.
- INSOL secretariat available to assist in providing information or meeting space at the office in London.

Via an INSOL member association.

You can become a member via one of our world wide member associations. By becoming a member via one of the member associations listed below you automatically receive a substantial discount on the cost of membership. Each member association will be able to advise you on how to include your INSOL International membership with your regular subscription.

We are constantly working to initiate member associations in many other countries not already listed.
